

## **Road Watch Advisory for the City of Fort Myers**

### **Caloosahatchee Connect Project January 19, 2022**

Contractors for the City of Fort Myers will build a water reclamation facility at the South Advanced Wastewater Treatment Plant (SAWWTP) on Matthew Drive and then construct a new reclaimed water transmission main. The pipeline will span from the SAWWTP on Matthew Drive, along Barkley Circle, then across Summerlin Road to Royal Palm Square Boulevard to Edwards Kontinos Drive to the connection point in the greenspace on San Marcos just south of Midpoint Bridge where it will connect to the City of Cape Coral's portion of the reclaimed water pipe being installed beginning in 2022. Work is expected to occur Monday through Friday from 7 a.m. to 7 p.m.; however, some night and weekend work may be necessary.

#### **Alliance for the Arts/Edward Kontinos Drive**

- Crews are installing the dewatering system, excavating and installing reclaimed water main pipe at the Alliance for the Arts property and Edwards Kontinos Drive.
- Motorists should expect the Colonial Boulevard (north) entrance to Alliance for the Arts closed during this work.
  - Motorists may access the Alliance for the Arts/Edwards Kontinos Drive from the Royal Palm Square Boulevard (south) entrance during this work.
  - This closure will remain in place until work is complete.

Drivers, pedestrians and bicyclists should use caution and be aware of construction equipment and vehicles entering/exiting streets in the project area. Motorists should expect lane shifts and intermittent closures during these activities. Some sidewalks may be closed during the project.

This schedule may be subject to change due to inclement weather and unforeseen underground conditions. For more project information, contact the City's public information consultant, Cella Molnar & Associates, Inc. at 239-337-1071 or via e-mail to [info@CaloosahatcheeConnect.com](mailto:info@CaloosahatcheeConnect.com).
